Remembrance and LightBy Max S"Remembrance and Light" is a beautiful book of black-and-white photos taken on Martha's Vineyard before 1984 by a superb photographer, Alison Shaw. Unfortunately it is out of print and difficult to find in bookstores. The used copy which I purchased is in very good condition for its age. The seller was very accurate and fair about the condition of the book and expedited the delivery of the book - it arrived within 2 days. Altogether the purchase of this book was an excellent experience.0 of 0 people found the following review helpful. Weep for the Vineyard of oldBy GinnyAlison and Mr. Hough present a portrait of an island now lost from view as the hedge fund managers and wannabes gobble up land and build megamonstrosities. This was the island back in the day when we still had an island way of life rather than being an A list destination.0 of 0 people found the following review helpful. Great bookBy S. WalkerWonderful photography, book was in good shape. One I will keep forever. I would recommend this book to any photography lover.

Renowned photographer Alison Shaw and legendary editor Henry Beetle Hough capture the spirit of Martha's Vineyard.
